**Subject:** 210-216 Slauson Start-up

Hello Ben,

Per our phone conversation just now, because of the uncertainty of the demolition inspection of 216 Slauson Ave, and the constraints that has on acquiring grading permits from the city, we will have a project start date of Wednesday (12/11/19) at 6:30am. In the event that the inspection does not occur by then, we will still begin work on the 210 property on that same Wednesday, as the 210 Slauson grading permit is currently available at the city. Please accept this email as the 48 hour notification to start work. I will keep you informed on any demolition inspection information I can get. Thank you.

Regards,

Matt Kaczmarek
